Generally, the Real Estate Seller Disclosure Law requires that before an agreement of sale is signed, the seller in a residential real estate transfer must make certain disclosures regarding the property to potential buyers in a form defined by the law. A residential real estate transfer is defined as a sale, exchange, installment sales contract, lease with an option to buy, grant or other transfer of an interest in real property where NOT LESS THAN ONE AND NOT MORE THAN FOUR RESIDENTIAL DWELLING UNITS are involved. Disclosures for condominiums and cooperatives are limited to the seller's particular unit(s). Disclosures regarding common areas or facilities are not required; as those elements are already addressed in the laws that govern the resale of condominium and cooperative interests.

(F) Public and/or Private Assessments

- Seller represents that, as of the date Seller signed this Agreement, no public improvement; condominium or homeowner association assessments have been made against the Property which remain unpaid, and that no notice by any government or public authority (excluding assessed value) has been served upon Seller or anyone on Seller's behalf, including notices relating to violations of zoning, housing, building, safety or fire ordinances that remain uncorrected, and that Seller knows of no condition that would constitute a violation of any such ordinances that remain uncorrected, unless otherwise specified here:
- Seller knows of no other potential notices (including violations) and/or assessments except as follows:

(G) Highway Occupancy Permit

Buyer and Seller acknowledge that IoT devices may transmit data to third parties outside of the control of their owner.
- On or before settlement, Seller will make a reasonable effort to clear all data stored on all lot devices located on the Property and included in the sale. Seller further acknowledges that all personal devices owned by Seller (including but not limited to cellular telephones, personal computers and tablets) having connectivity to any IoT device(s) located on the Property will be disconnected and cleared of relevant data prior to settlement. Further, no attempts will be made after settlement by Seller or anyone on Seller's behalf to access any loT devices remaining on the Property.
- Following settlement, Buyer will make a reasonable effort to clear all stored data from any IoT device(s) remaining on the Property and to restrict access to said devices by Seller, Seller's agents or any third party to whom Seller may have previously provided access. This includes, but is not limited to, restoring IoT devices to original settings, changing passwords or codes, updating network settings and submitting change of ownership and contact information to device manufacturers and service providers.
- This paragraph will survive settlement.
